### FINAL DECISION ON DISCUSSION, WITH WASHINGTON

AMERICAN DELEGATE GIBSON  
SUBMITS QUESTION TO  
GOVERNMENT

STATUS OF SAME SUPPOSED SET-  
TLED AT WASHINGTON  
CONFERENCE

By HENRY WOOD  
(United Press Staff Correspondent)  
Geneva, June 25.—Final decision  
whether capital ships were to be dis-  
cussed at the naval limitation con-  
ference rested with Washington to-  
day.

American Delegate Hugh S. Gib-  
son submitted the question to the  
government at Washington follow-  
ing absolute insistence by W. C.  
Bridgeman, chief British delegate,  
that he was unable to return to Lon-  
don without putting his govern-  
ment's views on capital ships before  
the conference.

Before seeking advice because of  
the apparent impassability of the  
obstacle, Gibson reiterated his view  
that he saw no reason to discuss  
capital ships, whose status was re-  
garded as settled at the Washington  
conference. The subject is not on  
the conference agenda.

Admiral Saito, Japan, in previ-  
ously asking fresh instructions from  
his government, also had pointed out  
that capital ships were not in the  
program.

Even if Washington met the Brit-  
ish viewpoint, now again raised to  
the proportions of a serious obstacle,  
it was intimated the American dele-  
gation would insist on disposition of  
the questions of cruiser, destroyer,  
and submarine limitation—the os-  
tensible chief business—before cap-  
ital ships were discussed.

By LUDWELL DENNY  
(United Press Staff Correspondent)

Washington, June 25.—The state  
department will instruct the Amer-  
ican delegation at the Geneva tri-  
partite naval conference to refuse  
Great Britain's request to discuss  
capital ships, already limited by the  
Washington treaty, the United Press  
learned authoritatively today.

Ambassador Hugh Gibson, chief  
American delegate, who communi-  
cated this question to Washington on  
request of the British, will be told  
today or tomorrow there is no  
change in his instructions to limit  
the Geneva agenda to auxiliary ship  
discussion as provided in President  
Coolidge's call for the conference.

Administration circles here show-  
ed extreme displeasure over unof-  
ficial British statements that Great  
Britain must have a "considerable  
navy supremacy," a high govern-  
ment official declared.

This flat declaration of American  
policy was in reply to reported state-  
ments of W. C. Bridgeman, chief  
British delegate, that Britain would  
accept equality with the United  
States on 10,000 ton cruisers but  
that parity in other types was still  
an open question.

The administration's concern over  
these developments is tempered, how-  
ever, by its belief that Great Britain's  
bark is worse than her bite and that  
she will eventually accept the 5-5-3  
ratio proposed by the United States.

Secretary of State Kellogg said he  
had no information supporting press  
reports of Japan's possible intention  
to request a special U. S. Japanese  
security treaty. The Japanese am-  
bassador here called on Kellogg to-  
day but gave no intimation of this,  
nor has there been any such official  
intimation from Geneva, it was said.

### PITCHED GUN BATTLE IN CORRIDOR OF A NASHVILLE HOTEL

Nashville, Tenn., June 25.—(UP)—  
A pitched gun battle in a corridor of  
the Andrew Jackson hotel here early  
today resulted in the serious wounding  
of two men, one a detective, and the  
arrest of a third on a charge of at-  
tempted robbery.

Robert Sheardon, a private detec-  
tive, opened fire on two men whom  
he said were trying to rob his room.  
One, who gave his name as Tom Mur-  
ray of Chicago, was perhaps fatally  
wounded.

Sheardon himself was seriously  
wounded and a third man who escaped  
unhurt was arrested. He refused to  
give his name or to talk with police.  
The dying man, however, was said to  
have admitted the robbery attempt.

### WOMAN CONVICTED OF MURDER IS SENTENCED TO HANG

Chicago, July 26.—(UP)—Mrs.  
Catherine Cassler, convicted of the  
murder of William Lindstrom, to-  
day was sentenced to hang Octo-  
ber 21.

She was found guilty by a jury  
several weeks ago and Judge  
Philip Sullivan today overruled  
motions for a new trial and pro-  
nounced sentence.

Mrs. Cassler is the third woman  
sentenced to hang in Chicago.  
None of the others were executed.  
Mrs. Lillian Fraser and Loren  
Patrick, who admitted complicity  
in connection with the murder,  
were sentenced to life imprison-  
ment.

Mrs. Cassler, a robust woman  
and the mother of two children,  
was calm when the hanging sen-  
tence was read. Judge Sullivan  
indicated that if she desired to  
plead guilty he would make the  
sentence life imprisonment.

Mrs. Cassler refused the offer.

### DOROTHY MACKAYE CASE NOW NEARING ITS CONCLUSION

BELIEVED FINAL ARGUMENTS  
WILL BE HELD ON  
MONDAY

CASE MAY THEN GO TO THE  
JURY ON TUES-  
DAY

Los Angeles, June 25.—(UP)—  
Attorneys in the case of Dorothy  
Mackaye, actress charged with at-  
tempting to conceal the manner in  
which her husband, Ray Raymond,  
was killed, today marshalled their  
forces in preparation for final ar-  
guments Monday.

It was believed the case would go  
to the jury some time Tuesday.

Raymond died after a fist fight  
with Paul Kelly, motion picture ac-  
tor. Kelly was convicted of man-  
slaughter and was sentenced to serve  
10 years.

When authorities were not notified  
of Raymond's death until two days  
after it occurred, Miss Mackaye and  
Dr. W. J. Sullivan were indicted on  
charges of attempting to cover up  
the cause of Raymond's death.

Sullivan was the last witness for  
the defense late yesterday. He in-  
sisted that he believed his diagnosis  
of Raymond's death, natural causes,  
was correct. He declared that Miss  
Mackaye had never approached him  
for aid in "hushing up" the circum-  
stances surrounding the actor's  
death.

Deputy District Attorney Ellis  
Eagan, who conducted the first of-  
ficial investigation into the case, fol-  
lowed Dr. Sullivan on the stand as  
a rebuttal witness for the prosecu-  
tion.

Miss Mackaye, he testified, seemed  
more concerned over the fate of  
Kelly than she did over the death of  
her husband.

"She wanted to know what would  
happen to Kelly; whether he had  
been arrested and what might be  
done about it," Egan said. "She  
didn't say a word about her hus-  
band."

### TRANSFER IN AIR MAIL FIELDS

Washington, June 25.—(UP)—The  
postoffice department today trans-  
ferred air mail equipment and build-  
ings on seven regular landing fields  
on the trans-continental air mail route  
to the municipalities where the fields  
are located.

The cities to receive the gift from  
the government were Cleveland; Chi-  
cago; Iowa City, Iowa; North Platte,  
Neb.; Cheyenne, Wyo.; Salt Lake City,  
Utah, and Elko, Nev.

### YARDMEN OF WESTERN ROADS GRANTED INCREASE

Chicago, June 25.—(UP)—The  
United States railway board of  
mediation today granted the yard-  
men of the western railroads 7½  
per cent increase in wages and  
refused increase asked by the  
Brotherhood of Railway Trainmen  
and Conductors.

### LEGISLATURE AND SENATE VISIT COOLIDGE

SOUTH DAKOTANS PAY THEIR  
RESPECTS TO THE  
PRESIDENT

TO BE RECEIVED ON LAWN OF  
SUMMER WHITE  
HOUSE

By PAUL R. MALLON  
(United Press Staff Correspondent)  
Rapid City, S. D., June 25.—On the  
stubby green lawn of the summer  
White House, cupped in the sacred  
hills of the Indians, the legislature  
and senate of this farming state will  
convene in extraordinary session to-  
day to pay respect to President Cool-  
idge.

State congress adjourned at its  
special business session at Pierre,  
the capital, to come here by special  
train over the week-end and express  
the gratitude of South Dakota that  
the president decided to spend his  
summer here.

A delegation of 41 senators and 90  
house members to be called into ses-  
sion in the strangest legislative cham-  
ber in which it ever convened. Rock  
hills rise all about in a sort of bowl;  
fish jump in Squaw creek which  
winds through where their lobby  
ought to be; wild and tame beasts  
can stare from nearby crags at their  
austerity.

Legislators headed by State Rep.  
Tom Berry at Mellette county in full  
cowboy regalia—who knows how to  
build a steer as well as debate  
with a mountain lion.

Mr. Coolidge indicated that he  
might address the delegation.

The special train bearing more  
than 250 celebrants left Pierre at  
5:30 A. M. to arrive shortly before  
noon at the state game lodge where  
the president is staying. They are  
to eat mountain camp lunch at Ga-  
lena, tourists' tent lodge, before con-  
vening on White House mountain  
meadow.

This was the only major item on  
Mr. Coolidge's week-end program.  
Governor General Leonard Wood left  
last night for Chicago after a confer-  
ence with newspapermen at the lodge  
where he announced his intention of  
returning to his post at Manila in  
September. He will be sufficiently  
recovered from recent illnesses and  
injuries to resume his administra-  
tive duties there by that time, he  
said.

Wood predicted that America's fu-  
ture rubber supply would come from  
the Philippines, where there is cheap  
labor and fertile rubber fields. Agi-  
tation of political leaders there for  
independence has prevented the com-  
ing of American capital, he declared,  
but people there are unfitted yet in  
education and responsibility to gov-  
ern themselves.

The general said the islands' most  
need is American normal school  
teachers to educate native teachers,  
and educators who will instruct in  
agriculture and commerce.

The president expected to go again  
Sunday to the little white washed  
church at the side of the road in  
Hermosa to hear the second sermon  
of Ralph Llum, Minnesota theologi-  
cal student. Many other pastors  
throughout the state have bid for  
the presence of the president, it is  
learned, but Mr. Coolidge had decid-  
ed to worship again at the place se-  
lected last Sunday, providing no out-  
side preacher is imported.

### STUDENT FALLS DEAD FROM HEART FAILURE AT STORE

Harrogate, Tenn., June 25.—(UP)—  
Howard Parker of Hilton, Va., a stu-  
dent at Lincoln Memorial university,  
fell dead from heart failure while  
demonstrating "health belts" in the  
window of a drug store.

### POPE RECEIVES BUTLER IN AUDIENCE

Rome, June 25.—(UP)—The pope  
today received in audience Dr. Nicho-  
las Murray Butler, president of Colum-  
bia university.

### FOREST FIRE BURNS 35,000 ACRES TIMBER

Bakersfield, Calif., June 25.—(U-  
P)—A fire which has burned over  
approximately 35,000 acres of  
standing timber in the Santa Bar-  
bara national forest was out of  
control early today.

Additional fire-fighters have  
been rushed from all nearby  
towns. The blaze, it is feared, will  
reach the heart of the forest north  
of Mount Animony unless it is  
checked before night.

### WHEN THE BOSS CUTS WAGES— WHAT TO DO?

NOT MUCH CAN BE DONE BY  
HIRED HELP, SAYS  
HOLLYWOOD

SOME OF MOVIE STARS OPENLY  
REBEL AGAINST  
SALARY CUTS

Hollywood, Cal., June 25.—(UP)—  
When the boss cuts wages there  
really isn't very much the hired help  
can do about it but let him, most of  
Hollywood's movie stars decided to-  
day.

Others declared they would rebel  
openly if the salary cuts of from 10  
to 25 per cent announced by the  
Motion Picture Producers association  
were put into effect.

The rebels, however, were careful  
to specify that they wouldn't be quot-  
ed directly in anything they had to  
say about the producers efforts "to  
stabilize the motion picture in-  
dustry."

Warner Brothers today was the  
only company that had asked players  
officially to accept lower salaries.

"At that," Monte Blue, one of the  
Warner celebrities said, "it seemed  
like the only thing to do under the  
circumstances."

Stars of other companies, ap-  
proached in a United Press canvass,  
said they had not been asked to ac-  
cept less money and they did not  
expect to be.

Billie Dove, Mary Astor, Richard  
Barthelmess and Milton Sills, all  
working under the banner of the  
First National, said they had not  
been requested to agree to lower  
salaries. First National officials said,  
however, that an employees would be  
subject to a 10 per cent cut, effective  
June 27.

John Gilbert, Greta Garbo, Norma  
Shearer and Renee Adoree, Metro-  
Goldwyn-Mayer luminaries, refused  
to be quoted other than to say they  
had not been approached.

### WARRANTS FOR ARRESTS OF 55

MANY OF THEM PROMINENT IN  
LOS ANGELES CIVIC  
AFFAIRS

Los Angeles, June 25.—(UP)—  
Warrants for the arrest of 55 per-  
sons, many of them prominent in  
Los Angeles civic affairs, were to be  
issued today in connection with the  
\$100,000,000 collapse of the Julian  
Petroleum Corporation.

Secret indictments were returned  
against the 55 late yesterday by the  
county grand jury. Bail on each in-  
dictment was fixed at from \$10,000  
to \$25,000. Charges included usury  
and conspiracy to violate the corpo-  
rate securities act.

Names of those indicted will be  
kept secret until they are arrested,  
District Attorney Asa Keyes said.  
He added that he expected more in-  
dictments would be issued next week.

San Francisco, June 25.—(UP)—

Anxiety over the condition of John  
Drew, 73-year-old actor, was some-  
what allayed today with the announce-  
ment at the hospital that he had  
passed a "very comfortable night."

Drew, stricken with arthritis, has  
been confined to the hospital for more  
than a month hovering between life  
and death.

### TRUSTIES IN FIGHT WITH MUTINEERS

CHARGED BARRICADE, USING  
PICK HANDLES, SHOVELS  
AND ROCKS

328 TRUANT PRISONERS BACK IN  
JAIL, PRISON BAND PLAYS  
"HOME SWEET HOME"

Lansing, Kas., June 25.—(UP)—  
The grim story of a hand to hand  
battle at the bottom of a 720 foot  
mine shaft between 278 of the 328  
mutinous prisoners who were not in  
sympathy with the mutiny, was re-  
lated by convicts in their cell houses  
here this morning.

Driven by fear and hunger, the  
men who were not in sympathy with  
mutiny, charged a barricade behind  
which they had been held prisoner  
and after breaking through, assault-  
ed the instigators of the mutiny with  
pick handles, shovels and rocks.

The day the strikers overpowered  
the guards in the coal mine, they  
barricaded the men who were not  
in sympathy with the strike, and de-  
clared a strike against prison officials.

The battle beneath the ground  
continued back and forth and with  
each onslaught the mutineers lost  
ground. Rocks were hurled against  
the wooden support in the mine, as  
the mutineers were driven past the  
telephone.

A hurried call was made to  
the surface for help. On past the  
guards the mutinous men were driv-  
en and with the guards as reinforc-  
ment the prisoners were within sight  
of the elevator cages.

Here a threat was made by the  
mutineers to blow up the shaft with  
dynamite but the rush was started  
again and the mutinous convicts  
were driven past the shaft. At one  
stage of the turmoil, the mutineers  
used acid in their fight and several  
men suffered burns.

After gaining control of the ele-  
vator the mutinous men were over-  
powered and sent to the surface 12  
at a time where they were taken by  
guards and placed in their cells. The  
most seriously wounded were sent up  
first.

Weakened by lack of food and ex-  
hausted from their fight, their faces  
grimy with coal dust and some  
streaked with blood, several of the  
imprisoned men collapsed when they  
reached the earth's surface. Others  
fell to the ground and lay there un-  
til sufficiently strong to rise.

Seven men are recuperating in  
the prison hospital this morning  
from wounds but none were in a  
serious condition.

The onslaught came after several  
threats from the men who were not  
in sympathy with the strike, and  
late yesterday afternoon, after the  
mutineers had talked over the prison  
telephone with a board member, the  
278 men made one more threat. But  
the mutineers only jeered.

Led by a white man, the impris-  
oned convicts set fire to the wooden  
barricade, and the fight, which lasted  
bitterly for some time, began.

The only serious injury occurred  
to a leader of the mutineers when  
he was attacked in the bathroom by  
other convicts. He was badly beaten  
and suffered injuries to the head  
which may prove serious.

The guards, who had been held in  
the mine shaft since Tuesday, were  
uninjured, but they were so weak  
from lack of food, not having eaten  
for four days, they were nearly ex-  
hausted.

All the men were fed in the large  
prison dining room shortly after the  
return, while the prison band sat in  
the end of the hall playing "Home  
Sweet Home."

### SALES ON NEW YORK STOCK EXCHANGE

RECORD SLUMP

New York, June 25.—(UP)—Sales  
on the New York Stock exchange to-  
day were the smallest for any Satur-  
day since November 20, 1926. Today's  
total was 690,000 shares, compared  
with 596,700 on Nov. 20.

### AIRPLANE CRASH VICTIM WAS HEIR TO \$6,000,000

St. Louis, Mo., June 25.—(UP)—  
James Walker, the St. Louis  
Princeton student who was killed in  
an airplane crash near Pottsville,  
Pa., yesterday, recently fell heir  
to a \$6,000,000 fortune, friends  
pointed out here today.

Although the youth had reached  
his majority last March, the for-  
tune left him by his mother, the  
former late Lilly Lambert, was not  
settled upon him by court un-  
til the present month.

Walker returned here from  
Princeton on his 21st birthday  
during the litigation concerning  
his heritage. Only two weeks ago  
he was known to have made a will  
bequeathing his entire fortune to  
favorite charities and friends.

Dr. Marlven Clopton, stepfather  
of the youth, was on his way east  
today to return the body.

### LINDBERGH HAS SERIOUS ASPIRATIONS

EMBARKED ON PROJECT, NA-  
TIONAL PASSENGER AIR-  
PLANE SYSTEM

MAY MAKE HIM ROCKEFELLER  
OF AMERICAN COMMER-  
CIAL AVIATION

Washington, June 25.—(UP)—  
Charles Lindbergh, flying mailman,  
today was embarked on a project de-  
signed to make him the Rockefeller  
of American commercial aviation.

With approval and backing of gov-  
ernment officials, the trans-oceanic  
flyer is in New York to hold con-  
ferences furthering a plan inaugurated  
here yesterday for a great national  
passenger airplane system, to be  
built around his prestige and leader-  
ship.

A half dozen leaders in different  
phases of present-day commercial  
flying, took part in the conferences  
here and it was believed that some  
of them might go in with Lindbergh  
in the new venture. In some quar-  
ters possibility of a gigantic merger  
of aviation properties, absorbing  
many big companies, was suggested  
but authorities in touch with the  
flyer's ventures said developments  
would take another form. Lind-  
bergh's announcement merely di-  
vulged the great project which  
brought him on a "mystery trip" to  
Washington, and added that "con-  
siderable progress was made, com-  
mittees were appointed, and that he  
hoped to make a further announce-  
ment in the near future."

Those in conference with Lind-  
bergh here yesterday are connected  
with two of the largest aviation  
companies now operating—Howard  
Coffin, president of the National Air  
Transport Company, Paul Hender-  
son, general manager of the same  
company, and William B. Mayo, chief  
engineer of the aviation department  
of the Ford Motor Company.

Casey Jones, famous pilot with the  
Curtiss Airplane and Motor Com-  
pany, Garden City, L. I., and C. W.  
Cuthell, New York lawyer, also took  
part in the discussions with Lind-  
bergh and two of his St. Louis back-  
ers, Major W. B. Robertson, aviation  
leader, and Harry H. Knight.

Government officials consulted in-  
cluded Secretary of State Kellogg,  
Postmaster General New and the  
three air secretaries.

Lindbergh's statement emphasized  
that the plans provided for "early  
establishment of a passenger airplane  
system 'national in scope.'"

It was understood a New York to  
St. Louis route was definitely dis-  
cussed and planned. His associates said  
that plan did not include air mail,  
but no definite word on this angle  
was given.

### 11 PRISONERS SAW WAY OUT OF COUNTY JAIL

Hobart, Okla., June 25.—(UP)—  
Eleven prisoners saved their way  
out of the Kiowa county jail today  
and escaped in an automobile.

Seven other inmates in another  
compartment were unable to free  
themselves.  
Sheriff's forces immediately  
took up the search.

### NAVY DEPARTMENT COMPLETES PLAN, TROUBLE IN CHINA

FURTHER DISORDER NOW ANTI-  
CIPATED IN NORTH  
CHINA

TIENTSIN, ACCORDING TO AD-  
MINISTRATION, MAY BECOME  
TROUBLE CENTER

Washington, June 25.—(UP)—  
The navy department completed  
plans for withdrawing marines from  
Nicaragua while 1,150 additional  
marines had been sent from Shang-  
hai to Tientsin in anticipation of  
trouble in North China.

Half of the 3,000 marines in  
Nicaragua will be withdrawn soon  
under plans drafted by Admiral E.  
W. Eberle, chief of naval operations.  
The first homecoming force, 538 of-  
ficers and men, will sail immediately  
for the marine base at Quantico, Va.

When the U. S. S. Argonne bring-  
ing these home, returns to Nicaragua  
she will embark a second group of  
410 officers and men, if conditions  
in Nicaragua are favorable, taking  
them to San Diego, Cal.

If peaceful conditions prevail  
when the Argonne returns again to  
Nicaragua, a third force will be em-  
barked, 640 officers and men, and  
taken to Haiti and Quantico.

It is probable the 1,500 left in  
Nicaragua, or a large part of them,  
will stay there until after the elec-  
tion in 1928, which the United States  
will supervise under the peace agree-  
ment negotiated by President Cool-  
idge's special representative, Col.  
Henry L. Stimson.

In addition to the 1,150 marines  
moved to Tientsin, others will be  
sent later from Shanghai to that  
point, Secretary Wilbur said. Enough  
will be maintained at Shanghai to  
meet any threat there.

### YOUNG 'BAD MAN' TO BE RETURNED TO OKLAHOMA

Flagstaff, Ariz., June 25.—(UP)—Of-  
ficers were expected here today to re-  
turn to Oklahoma Mathew Kimes, 21-  
year-old "bad man" who terrorized  
parts of the southwest for months. He  
is wanted in Beggs, Okla., in connec-  
tion with the murder of Chief of Po-  
lice W. K. McCannally.

Kimes was captured Thursday at  
Grand Canyon, Ariz., by authorities  
who suspected him of planning to rob  
a government payroll there.

The youthful desperado started to  
shoot at the officers, but when they  
returned the fire he cried:  
"I give up; I know when I've had  
enough."

With C. H. Keady and Keady's wife,  
Kimes was lodged in the Flagstaff  
jail. He said he would not fight ex-  
tradition to Oklahoma.

Meanwhile authorities today pa-  
trolled all roads near Flagstaff in  
hopes of apprehending other members  
of Kimes' gang.

### MORE ON FIVE CENT BEER AT WINDSOR

Windsor, Ont., June 25.—(UP)—The  
price of beer was reduced today to  
the equivalent of five cents a glass  
and made available to consumers at  
the breweries instead of through the  
liquor stores. The price reduction  
was aimed to encourage the drinking  
of beer instead of hard liquors.

When the new liquor regulations  
went into effect, the price of beer was  
fixed at \$3.75 for a case of 24 pint  
bottles. That was too expensive for  
the working man, so he drank hard  
liquors, brewers testified before the  
liquor commission.

New regulations were promulgated  
and went into effect today. Four gal-  
lon kegs went on sale at \$2.40 each.  
Government agents supervised the sale  
at the breweries. Only persons with  
liquor permits secured at the govern-  
ment stores, could make purchases.

### VAN LEAR BLACK, PUBLISHER, FLIES TO CALCUTTA

Calcutta, June 25.—(UP)—Van Lear  
Black, publisher of the Baltimore Sun,  
arrived here by airplane from Alla-  
habad shortly after noon today. He  
left Allahabad at 7 a. m.

### FINAL DECISION ON DISCUSSION, WITH WASHINGTON

AMERICAN DELEGATE GIBSON  
SUBMITS QUESTION TO  
GOVERNMENT

STATUS OF SAME SUPPOSED SET-  
TLED AT WASHINGTON  
CONFERENCE

By HENRY WOOD  
(United Press Staff Correspondent)  
Geneva, June 25.—Final decision whether capital ships were to be discussed at the naval limitation conference rested with Washington today.

American Delegate Hugh S. Gibson submitted the question to the government at Washington following absolute insistence by W. C. Bridgeman, chief British delegate, that he was unable to return to London without putting his government's views on capital ships before the conference.

Before seeking advice because of the apparent impassability of the obstacle, Gibson reiterated his view that he saw no reason to discuss capital ships, whose status was regarded as settled at the Washington conference. The subject is not on the conference agenda.

Admiral Saito, Japan, in previously asking fresh instructions from his government, also had pointed out that capital ships were not in the program.

Even if Washington met the British viewpoint, now again raised to the proportions of a serious obstacle, it was intimated the American delegation would insist on disposition of the questions of cruiser, destroyer, and submarine limitation—the ostensible chief business—before capital ships were discussed.

By LUDWELL DENNY  
(United Press Staff Correspondent)  
Washington, June 25.—The state department will instruct the American delegation at the Geneva tripartite naval conference to refuse Great Britain's request to discuss capital ships, already limited by the Washington treaty, the United Press learned authoritatively today.

Ambassador Hugh Gibson, chief American delegate, who communicated this question to Washington on request of the British, will be told today or tomorrow there is no change in his instructions to limit the Geneva agenda to auxiliary ship discussion as provided in President Coolidge's call for the conference.

Administration circles here showed extreme displeasure over unofficial British statements that Great Britain must have a "considerable navy supremacy," a high government official declared.

This flat declaration of American policy was in reply to reported statements of W. C. Bridgeman, chief British delegate, that Britain would accept equality with the United States on 10,000 ton cruisers but that parity in other types was still an open question.

The administration's concern over these developments is tempered, however, by its belief that Great Britain's bark is worse than her bite and that she will eventually accept the 5-5-3 ratio proposed by the United States.

Secretary of State Kellogg said he had no information supporting press reports of Japan's possible intention to request a special U. S. Japanese security treaty. The Japanese ambassador here called on Kellogg today but gave no intimation of this, nor has there been any such official intimation from Geneva, it was said.

### PITCHED GUN BATTLE IN CORRIDOR OF A NASHVILLE HOTEL

Nashville, Tenn., June 25.—(UP)—A pitched gun battle in a corridor of the Andrew Jackson hotel here early today resulted in the serious wounding of two men, one a detective, and the arrest of a third on a charge of attempted robbery.

Robert Sheardon, a private detective, opened fire on two men whom he said were trying to rob his room. One, who gave his name as Tom Murray of Chicago, was perhaps fatally wounded.

Sheardon himself was seriously wounded and a third man who escaped unhurt was arrested. He refused to give his name or to talk with police. The dying man, however, was said to have admitted the robbery attempt.

### WOMAN CONVICTED OF MURDER IS SENTENCED TO HANG

Chicago, July 26.—(UP)—Mrs. Catherine Cassler, convicted of the murder of William Lindstrom, today was sentenced to hang October 21.

She was found guilty by a jury several weeks ago and Judge Philip Sullivan today overruled motions for a new trial and pronounced sentence.

Mrs. Cassler is the third woman sentenced to hang in Chicago. None of the others were executed. Mrs. Lillian Fraser and Loren Patrick, who admitted complicity in connection with the murder, were sentenced to life imprisonment.

Mrs. Cassler, a robust woman and the mother of two children, was calm when the hanging sentence was read. Judge Sullivan indicated that if she desired to plead guilty he would make the sentence life imprisonment.

Mrs. Cassler refused the offer.

### DOROTHY MACKAYE CASE NOW NEARING ITS CONCLUSION

BELIEVED FINAL ARGUMENTS  
WILL BE HELD ON  
MONDAY

CASE MAY THEN GO TO THE  
JURY ON TUES-  
DAY

Los Angeles, June 25.—(UP)—Attorneys in the case of Dorothy Mackaye, actress charged with attempting to conceal the manner in which her husband, Ray Raymond, was killed, today marshalled their forces in preparation for final arguments Monday.

It was believed the case would go to the jury some time Tuesday. Raymond died after a fist fight with Paul Kelly, motion picture actor. Kelly was convicted of manslaughter and was sentenced to serve 10 years.

When authorities were not notified of Raymond's death until two days after it occurred, Miss Mackaye and Dr. W. J. Sullivan were indicted on charges of attempting to cover up the cause of Raymond's death.

Sullivan was the last witness for the defense late yesterday. He insisted that he believed his diagnosis of Raymond's death, natural causes, was correct. He declared that Miss Mackaye had never approached him for aid in "hushing up" the circumstances surrounding the actor's death.

Deputy District Attorney Ellis Egan, who conducted the first official investigation into the case, followed Dr. Sullivan on the stand as a rebuttal witness for the prosecution.

Miss Mackaye, he testified, seemed more concerned over the fate of Kelly than she did over the death of her husband.

"She wanted to know what would happen to Kelly; whether he had been arrested and what might be done about it," Egan said. "She didn't say a word about her husband."

### LEGISLATURE AND SENATE VISIT COOLIDGE

SOUTH DAKOTANS PAY THEIR  
RESPECTS TO THE  
PRESIDENT

TO BE RECEIVED ON LAWN OF  
SUMMER WHITE  
HOUSE

By PAUL R. MALLON  
(United Press Staff Correspondent)  
Rapid City, S. D., June 25.—On the stubby green lawn of the summer White House, cupped in the sacred hills of the Indians, the legislature and senate of this farming state will convene in extraordinary session today to pay respect to President Coolidge.

State congress adjourned at its special business session at Pierre, the capital, to come here by special train over the week-end and express the gratitude of South Dakota that the president decided to spend his summer here.

A delegation of 41 senators and 90 house members to be called into session in the strangest legislative chamber in which it ever convened. Rock hills rise all about in a sort of bowl, fish jump in Squaw creek which winds through where their lobby ought to be; wild and tame beasts can stare from nearby crags at their austerity.

Legislators headed by State Rep. Tom Berry at Mellette county in full cowboy regalia—who knows how to bulldoze a steer as well as debate with a mountain lion.

Mr. Coolidge indicated that he might address the delegation.

The special train bearing more than 250 celebrants left Pierre at 5:30 A. M. to arrive shortly before noon at the state game lodge where the president is staying. They are to eat mountain camp lunch at Galena, tourists' tent lodge, before convening on White House mountain meadow.

This was the only major item on Mr. Coolidge's week-end program. Governor General Leonard Wood left last night for Chicago after a conference with newspapermen at the lodge where he announced his intention of returning to his post at Manila in September. He will be sufficiently recovered from recent illnesses and injuries to resume his administrative duties there by that time, he said.

Wood predicted that America's future rubber supply would come from the Philippines, where there is cheap labor and fertile rubber fields. Agriculture of political leaders there for independence has prevented the coming of American capital, he declared, but people there are unfitted yet in education and responsibility to govern themselves.

The general said the islands' most need is American normal school teachers to educate native teachers, and educators who will instruct in agriculture and commerce.

The president expected to go again Sunday to the little white washed church at the side of the road in Hermosa to hear the second sermon of Ralph Lium, Minnesota theological student. Many other pastors throughout the state have bid for the presence of the president, it is learned, but Mr. Coolidge had decided to worship again at the place selected last Sunday, providing no outside preacher is imported.

Bakersfield, Calif., June 25.—(UP)—A fire which has burned over approximately 35,000 acres of standing timber in the Santa Barbara national forest was out of control early today.

### WHEN THE BOSS CUTS WAGES— WHAT TO DO?

NOT MUCH CAN BE DONE BY  
HIRED HELP, SAYS  
HOLLYWOOD

SOME OF MOVIE STARS OPENLY  
REBEL AGAINST  
SALARY CUTS

Hollywood, Cal., June 25.—(UP)—When the boss cuts wages there really isn't very much the hired help can do about it but let him, most of Hollywood's movie stars decided today.

Others declared they would rebel openly if the salary cuts of from 10 to 25 per cent announced by the Motion Picture Producers association were put into effect.

The rebels, however, were careful to specify that they wouldn't be quoted directly in anything they had to say about the producers efforts "to stabilize the motion picture industry."

Warner Brothers today was the only company that had asked players officially to accept lower salaries.

"At that," Monte Blue, one of the Warner celebrities said, "it seemed like the only thing to do under the circumstances."

Stars of other companies, approached in a United Press canvass, said they had not been asked to accept less money and they did not expect to be.

Billie Dove, Mary Astor, Richard Barthelmess and Milton Sills, all working under the banner of the First National, said they had not been requested to agree to lower salaries. First National officials said, however, that all employees would be subject to a 10 percent cut, effective June 27.

John Gilbert, Greta Garbo, Norma Shearer and Renee Adoree, Metro-Goldwyn-Mayer luminaries, refused to be quoted other than to say they had not been approached.

### WARRANTS FOR ARRESTS OF 55

MANY OF THEM PROMINENT IN  
LOS ANGELES CIVIC  
AFFAIRS

Los Angeles, June 25.—(UP)—Warrants for the arrest of 55 persons, many of them prominent in Los Angeles civic affairs, were to be issued today in connection with the \$100,000,000 collapse of the Julian Petroleum Corporation.

Secret indictments were returned against the 55 late yesterday by the county grand jury. Bail on each indictment was fixed at from \$10,000 to \$25,000. Charges included usury and conspiracy to violate the corporate securities act.

Names of those indicted will be kept secret until they are arrested, District Attorney Asa Keyes said. He added that he expected more indictments would be issued next week.

San Francisco, June 25.—(UP)—Anxiety over the condition of John Drew, 73-year-old actor, was somewhat allayed today with the announcement at the hospital that he had passed a "very comfortable night."

Drew, stricken with arthritis, has been confined to the hospital for more than a month hovering between life and death.

### TRUSTIES IN FIGHT WITH MUTINEERS

CHARGED BARRICADE, USING  
PICK HANDLES, SHOVELS  
AND ROCKS

328 TRUANT PRISONERS BACK IN  
JAIL, PRISON BAND PLAYS  
"HOME SWEET HOME"

Lansing, Kas., June 25.—(UP)—The grim story of a hand to hand battle at the bottom of a 720 foot mine shaft between 278 of the 328 mutinous prisoners who were not in sympathy with the mutiny, was related by convicts in their cell houses here this morning.

Driven by fear and hunger, the men who were not in sympathy with mutiny, charged a barricade behind which they had been held prisoner and after breaking through, assaulted the instigators of the mutiny with pick handles, shovels and rocks.

The day the strikers overpowered the guards in the coal mine, they barricaded the men who were not in sympathy with the strike, and declared a strike against prison officials.

The battle beneath the ground continued back and forth and with each onslaught the mutineers lost ground. Rocks were hurled against the wooden support in the mine, as the mutineers were driven past the telephone. A hurried call was made to the surface for help. On past the guards the mutinous men were driven and with the guards as reinforcements the prisoners were within sight of the elevator cages.

Here a threat was made by the mutineers to blow up the shaft with dynamite but the rush was started again and the mutinous convicts were driven past the shaft. At one stage of the turmoil, the mutineers used acid in their fight and several men suffered burns.

After gaining control of the elevator the mutinous men were overpowered and sent to the surface 12 at a time where they were taken by guards and placed in their cells. The most seriously wounded were sent up first.

Weakened by lack of food and exhausted from their fight, their faces grimy with coal dust and some streaked with blood, several of the imprisoned men collapsed when they reached the earth's surface. Others fell to the ground and lay there until sufficiently strong to rise.

Seven men are recuperating in the prison hospital this morning from wounds but none were in a serious condition.

The onslaught came after several threats from the men who were not in sympathy with the strike, and late yesterday afternoon, after the mutineers had talked over the prison telephone with a board member, the 278 men made one more threat. But the mutineers only jeered.

Led by a white man, the imprisoned convicts set fire to the wooden barricade, and the fight, which lasted bitterly for some time, began.

The only serious injury occurred to a leader of the mutineers when he was attacked in the bathroom by other convicts. He was badly beaten and suffered injuries to the head which may prove serious.

The guards, who had been held in the mine shaft since Tuesday, were uninjured, but they were so weak from lack of food, not having eaten for four days, they were nearly exhausted.

All the men were fed in the large prison dining room shortly after the return, while the prison band sat in the end of the hall playing "Home Sweet Home."

### SALES ON NEW YORK STOCK EXCHANGE RECORD SLUMP

New York, June 25.—(UP)—Sales on the New York Stock exchange today were the smallest for any Saturday since November 20, 1926. Today's total was 690,000 shares, compared with 596,700 on Nov. 20.

### AIRPLANE CRASH VICTIM WAS HEIR TO \$6,000,000

St. Louis, Mo., June 25.—(UP)—James Walker, the St. Louis Princeton student who was killed in an airplane crash near Pottsville, Pa., yesterday, recently fell heir to a \$6,000,000 fortune, friends pointed out here today.

Although the youth had reached his majority last March, the fortune left him by his mother, the former late Lilly Lambert, was not settled upon him by court until the present month.

Walker returned here from Princeton on his 21st birthday during the litigation concerning his heritage. Only two weeks ago he was known to have made a will bequeathing his entire fortune to favorite charities and friends.

Dr. Marjorie Clifton, stepfather of the youth, was on his way east today to return the body.

### LINDBERGH HAS SERIOUS ASPIRATIONS

EMBARKED ON PROJECT, NA-  
TIONAL PASSENGER AIR-  
PLANE SYSTEM

MAY MAKE HIM ROCKEFELLER  
OF AMERICAN COMMER-  
CIAL AVIATION

Washington, June 25.—(UP)—Charles Lindbergh, flying mailman, today was embarked on a project designed to make him the Rockefeller of American commercial aviation.

With approval and backing of government officials, the trans-oceanic flyer is in New York to hold conferences furthering a plan inaugurated here yesterday for a great national passenger airplane system, to be built around his prestige and leadership.

A half dozen leaders in different phases of present-day commercial flying, took part in the conferences here and it was believed that some of them might go in with Lindbergh in the new venture. In some quarters possibility of a gigantic merger of aviation properties, absorbing many big companies, was suggested but authorities in touch with the flyer's ventures said developments would take another form. Lindbergh's announcement merely divulged the great project which brought him on a "mystery trip" to Washington, and added that "considerable progress was made, committees were appointed, and that he hoped to make a further announcement in the near future."

Those in conference with Lindbergh here yesterday are connected with two of the largest aviation companies now operating—Howard Coffin, president of the National Air Transport Company, Paul Henderson, general manager of the same company, and William B. Mayo, chief engineer of the aviation department of the Ford Motor Company.

Casey Jones, famous pilot with the Curtiss Airplane and Motor Company, Garden City, L. I., and C. W. Cuthell, New York lawyer, also took part in the discussions with Lindbergh and two of his St. Louis backers, Major W. B. Robertson, aviation leader, and Harry H. Knight.

Government officials consulted included Secretary of State Kellogg, Postmaster General New and the three air secretaries.

Lindbergh's statement emphasized that the plans provided for "early" establishment of a passenger airplane system "national in scope."

It was understood a New York to St. Louis route was definitely discussed and planned. His associates said that plan did not include air mail, but no definite word on this angle was given.

### NAVY DEPARTMENT COMPLETES PLAN, TROUBLE IN CHINA

FURTHER DISORDER NOW ANTI-  
CIPATED IN NORTH  
CHINA

TIENTSIN, ACCORDING TO AD-  
MINISTRATION, MAY BECOME  
TROUBLE CENTER

Washington, June 25.—(UP)—The navy department completed plans for withdrawing marines from Nicaragua while 1,150 additional marines had been sent from Shanghai to Tientsin in anticipation of trouble in North China.

Half of the 3,000 marines in Nicaragua will be withdrawn soon under plans drafted by Admiral E. W. Eberle, chief of naval operations. The first homecoming force, 538 officers and men, will sail immediately for the marine base at Quantico, Va.

When the U. S. S. Argonne bringing these home, returns to Nicaragua she will embark a second group of 410 officers and men, if conditions in Nicaragua are favorable, taking them to San Diego, Cal.

If peaceful conditions prevail when the Argonne returns again to Nicaragua, a third force will be embarked, 640 officers and men, and taken to Haiti and Quantico.

It is probable the 1,500 left in Nicaragua, or a large part of them, will stay there until after the election in 1928, which the United States will supervise under the peace agreement negotiated by President Coolidge's special representative, Col. Henry L. Stimson.

In addition to the 1,150 marines moved to Tientsin, others will be sent later from Shanghai to that point, Secretary Wilbur said. Enough will be maintained at Shanghai to meet any threat there.

### YOUNG 'BAD MAN' TO BE RETURNED TO OKLAHOMA

Flagstaff, Ariz., June 25.—(UP)—Officers were expected here today to return to Oklahoma Mathew Kimes, 21-year-old "bad man" who terrorized parts of the southwest for months. He is wanted in Beggs, Okla., in connection with the murder of Chief of Police W. K. McCannally.

Kimes was captured Thursday at Grand Canyon, Ariz., by authorities who suspected him of planning to rob a government payroll there.

The youthful desperado started to shoot at the officers, but when they returned the fire he cried:

"I give up; I know when I've had enough."

With C. H. Keady and Keady's wife, Kimes was lodged in the Flagstaff jail. He said he would not fight extradition to Oklahoma.

Meanwhile authorities today patrolled all roads near Flagstaff in hopes of apprehending other members of Kimes' gang.

### MORE ON FIVE CENT BEER AT WINDSOR

Windsor, Ont., June 25.—(UP)—The price of beer was reduced today to the equivalent of five cents a glass and made available to consumers at the breweries instead of through the liquor stores. The price reduction was aimed to encourage the drinking of beer instead of hard liquors.

When the new liquor regulations went into effect, the price of beer was fixed at \$3.75 for a case of 24 pint bottles. That was too expensive for the working man, so he drank hard liquors, brewers testified before the liquor commission.

New regulations were promulgated and went into effect today. Four gallon kegs went on sale at \$2.40 each. Government agents supervised the sale at the breweries. Only persons with liquor permits secured at the government stores, could make purchases.

## LOCAL FANCY DIVER ACCEPTS CHALLENGE

"Dixie" Thompson Agrees to Meet  
Miss Myrtle Gray in Under  
Water Test Tonight

### THRILLING BATTLE EXPECTED

Miss Gray Holds the Present Under  
Water Endurance Record Which  
"Dixie" Once Held

At the second performance tonight  
at the Lachman-Carson water show,  
"Dixie" Thompson, well known local  
fancy diver and under water worker,  
will compete with Miss Myrtle Gray,  
holder of the present under water

man, woman or child to submerge  
longer than she.

Last evening, Herbert Britton, local  
man, accepted the challenge, but  
remained only 50 seconds, which  
the lady bettered easily. She re-  
mained under just one minute, just  
enough to establish a fair margin of  
victory. Mr. Britton gave a good  
performance, as it is easily under-

other divers of the show in order to  
get into condition for the test this  
evening. She donated her services  
for the benefit of the Firemen under  
whose auspices the carnival is show-  
ing in Brainerd.

Miss Gray and Mrs. Thompson  
were formerly rivals in this line of  
work on the largest vaudeville cir-  
cuits in the country, using glass  
front tanks, and the former is under  
no illusion as to the sort of competi-  
tion she will receive from the local  
diver tonight. She knows she will  
have to put forth her best efforts to  
uphold her challenge. The water in  
the tanks was taken from the city  
water mains and has been of an icy  
temperature all week and of course is  
not favorable toward the creation of  
any records on the part of these un-  
der water artists, but each is deter-  
mined to win. As both contestants  
are of "the weaker sex" they prob-  
ably will enter the tank at the same  
time and remain until one of the  
two signifies defeat.

Mrs. Thompson took her first try-  
out of the season at Lum Park yes-  
terday, but although she has had  
only such a short time to prepare for  
the test, expresses confidence that  
she will at least make a good show-  
ing against Miss Gray, if she is un-  
able to defeat her.

The Moose Lodge has engaged  
Mrs. Thompson to give two exhibi-  
tions of fancy diving and board work  
at Lum Park on the Fourth of July,  
one in the afternoon and the other  
in the evening.

### Sitting on Flagpole

#### Has Its Discouragements

Denver, Colo., June 25.—(UP)—  
This business of sitting on top of flag  
poles has its own peculiar disadvan-  
tages, "Spider" Haines lamented  
through a megaphone to interviewers  
from his perch atop a Denver flag  
pole today.

Spider has been sitting on the pole  
since Thursday in an attempt to break  
the world's long distance flag pole  
sitting of 12 days and nights by "Ship-  
wreck" Kelly in Newark, N. J.

"It's hot in the daytime, awful hot,"  
Spider said. "And at night it's cold—  
and how."

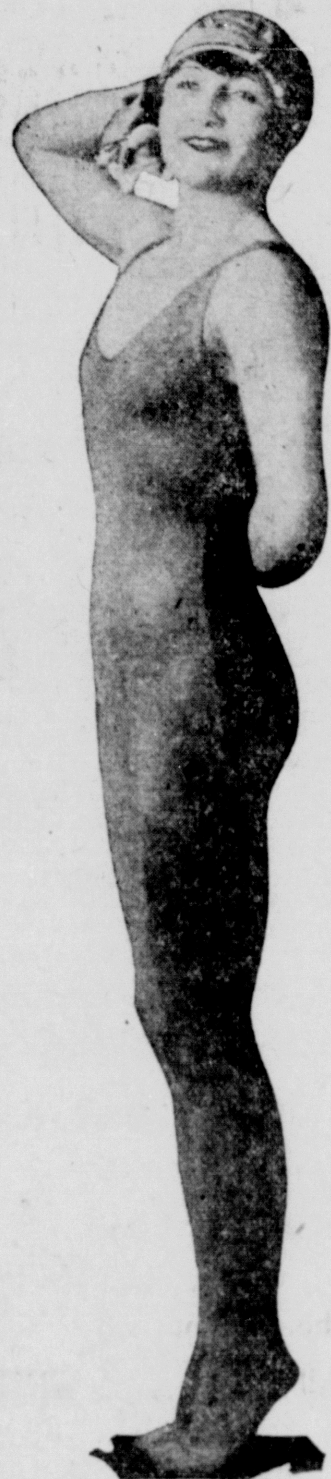

But then Spider declared he had ex-  
pected extreme climatic conditions.  
What he didn't expect was the birds.  
"Those pigeons just sit and stare,"  
Spider said. "They're too solemn.  
They're getting on my nerves."

Miss Myrtle Gray

stood that Miss Gray has an advan-  
tage of being under endurance tests  
almost every day.

Mrs. Thompson last evening per-  
formed a few fancy dives with the

"Dixie" Thompson

endurance record. "Dixie" at one  
time held this same record, but Miss  
Gray during the last year has broken  
by a matter of a few seconds. Miss  
Gray has an open challenge to any

## NATIONS DRAWING TOGETHER

AN important gain for good understanding and good will in the world seems to have been scored by the Geneva economic conference, held under the auspices of the League of Nations. From first to last there was never a political move, nor even discussion of political matters. Commerce, finance, industry, agriculture were the subjects of common counsel. One truth was taken for granted, that international trade is a thing to be desired and that its progress consists not in the profit of one at the expense of another, but in mutual benefit and general betterment. This is the soul of good business, and it is the essence of good will.

Moreover, the exchange of views and of experiences gave each nation's representatives a clearer and wider outlook. "The average delegate," says an American who was present, "arrived in Geneva with a pronounced idea of the defects and injustices in the policies of other countries, but after twenty days of labor all came to adopt the attitude expressed in the final report that all countries must try a plan of parallel and concerted action." This assuredly is the essence of good understanding.

Such are the results of free discussion of economic problems by practical men. Whatever theorists may hold, whatever politicians may object, it is in the natural order of things that nations should draw together in the age of the steamboat, the radiophone and the airplane. They probably will not draw together according to the plans of academic idealists, but their community of interests will be none the less vital.—*Atlanta Journal*.

## SHOULD EXTEND GREETING

BRAINERD women should make it a point to be at the Northern Pacific railway depot Sunday afternoon at 3 o'clock to extend a cordial greeting to the Pi Beta Phi women about to spend six days in our Brainerd Lake Region.

As Brainerd is known to the world as the gateway to the 10,000 lakes we should have the world of womanhood at the depot to greet the distinguished visitors as they enter our incomparable lake country.

Some seven hundred fraternity members are expected from scores of universities. The convention at Breezy Point has an international aspect as Canadian universities are represented too.

In the way of decorations, therefore, display both American and Canadian flags. The colors of the Pi Beta Phi are wine and silver blue.

The University of Toronto delegates will take the lake trip to Duluth and travel with the Duluth delegates. They are expected on the Sunday noon train.

## DAIRY AND DIVERSIFIED FARMING SHOW

MARKING its fifth year of cooperation with the Minnesota State Agricultural Society, the Northwest Dairy Exposition Committee with Governor Theodore Christianson as general chairman has organized to stage a dairy and diversified farming show at the 1927 State Fair, Sept. 3-10.

The governor has appointed 104 representatives of Minnesota and adjoining states interested in the dairy show, the list including farmers, livestock breeders, merchants, bankers, railroad men and others.

Active promotion will be carried on during the summer by the executive committee with D. D. Tenney of Crystal Bay, prominent breeder of pure-bred dairy cattle, as chairman. Offices have been opened at the state fair grounds at Hamline through the courtesy of the State Fair.

The regular dairy and beef cattle premium list will be supplemented this year by \$6,200 appropriated for the purpose by the committee.

Boys and girls entered in the Junior Dairy Show will be offered an additional amount of \$1,350, an increase over the premiums offered by the fair, from the committee's funds.

## PI BETA PHI CONVENTION

IN referring to the coming convention of the Pi Beta Phi in the Brainerd Lake Region, the editor, Agnes Wright Spring (Mrs. Archer T.), writes in a recent issue of "The Arrow," official organ of the fraternity:

"Convention will soon be here again bringing us together from all corners of this country and even from foreign lands. It should mean a week of constructive work and pleasure in which every day is devoted to the strengthening of our organization.

"The coming together of so many women of varied experiences and ideas yet who are all interested in the advancement of educated and cultured womanhood, should mean much to Pi Beta Phi.

"The fact that we have chapters in all colleges of all sizes, ages and stages of development should mean that we have a combined viewpoint capable of grasping all problems of the college woman of today.

"We should remember that we are all units of a big team and should play the game from the team's standpoint."

## NAMES COURT REPORTER

COUNTY ATTORNEY GRAHAM M. TORRANCE of Bemidji, named as successor to the late Judge C. W. Stanton, of the fifteenth judicial district court, has named Lee LaBaw of Bemidji, court reporter.

Mr. LaBaw came to Bemidji in 1909 and served Judge Stanton continuously until the judge's death. Previous to coming to Bemidji he served as court reporter in Chicago for a time. LaBaw has many friends in Brainerd who are pleased with his re-appointment.

## COMMERCIALIZED FLYING

OUR flying across the Atlantic has not yet reached the stage of being a habit. It takes decent weather to make the trip and until flying gets down to a steady basis, conducted regardless of the weather, it cannot be commercialized.

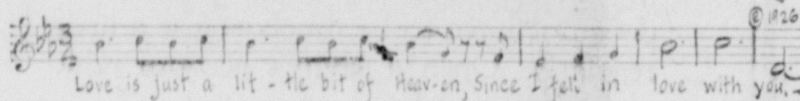

Nobody would care to take a flying boat if he had to wait for suitable weather. Byrd now has been waiting weeks, during which time one could have made a trip to Europe on a steamer.

THE Minneapolis Tribune took up quite a task the other day when it tried to define the "hick mind." It must be some job to be an authority on a topic so far distant from the editorial desk.

# One-Hundred-Piece Band Accompanies Woman Singer

MARJORIE MOODY

## Marjorie Moody Finds No Difficulty in Being Heard

New York City.—Singing to the accompaniment of a hundred-piece brass band is an achievement attained by few women. Indeed, Miss Marjorie Moody, soprano, is the only one who has done it so far as anybody knows. Yet she says it is really easy, provided you have the right band and the right song.

Miss Moody is the soloist with John Philip Sousa, and has sung with him for several years.

"At first, people were skeptical that any woman's voice could be heard above the hundred brasses," she admits, "but, of course, Mr. Sousa's band convinced them. He has carried on for

years the most thrilling experiments with his instruments. "It's a mistake to imagine that a brass band, to be successful, must blare and drown out everything else within hearing. I have never experienced the faintest difficulty in being heard above the band and it isn't necessary for me to strain my voice, either.

"Some of our best selections are quite soft and cradle-songish, contrary to popular belief. "Of course, not all modern music is especially adapted to voice and a brass band. One song that I am singing offers interesting and charming possibilities. It is 'Love Is Just a Little Bit of Heaven,' a waltz ballad which is now my favorite encore number. It has the 'something' which gives it personality."

Miss Moody is a Bostonian who was trained for grand opera.

# BUDDY TAYLOR BESTS YOUNG CANZONERI

## FIGHTING HOOSIER BEATS THE GAME NEW YORK ITALIAN

TAYLOR AWARDED SIX OUT OF  
THE TEN ROUNDS  
FOUGHT

CANZONERI EARNS TWO ROUNDS  
AND TWO DECLARED  
EVEN

By CLARK B. KELSEY  
(United Press Staff Correspondent)  
Chicago, June 25.—A fighting  
Little Hoosier beat a game Little New  
York Italian for the bantamweight  
championship of the world here last  
night, and most of the ringside cus-  
tomers said the savage bout was the  
best they had ever seen.

Buddy Taylor, who was acclaimed  
bantamweight champion, when Char-  
ley Rosenberg was barred from most  
of the rings in the country, avenged  
himself on those who said he did not  
deserve the honor, and that he was  
on the down grade.

He beat Tony Canzoneri, New York  
challenger in six out of 10 rounds.  
Canzoneri earned two of the rounds  
and two were even. Both lads left  
the ring with faces smeared with  
blood, and features puffed almost  
beyond recognition. But neither  
backed up, and neither was afraid  
to take a blow to land one.

The Taylor who fought Canzoneri  
was a different Taylor than the man  
who fought him indoors last March.  
He was trained to the minute, lithe  
as a panther and fierce as a wildcat.  
He weighed 117½ pounds and that  
117½ was all heart.

Taylor's rapier like left, which  
jolted Canzoneri time and again in  
every round earned him the clean  
cut victory. He popped and poked,  
and slammed and slashed that left  
to Tony's head and heart, meanwhile  
peppered away at the smiling Ital-  
ian's body with his right.

In the meantime Canzoneri was  
pounding and slashing at Taylor's  
mouth and nose with alternate lefts  
and rights. He closed the cham-  
pion's left eye completely in the  
ninth.

Canzoneri won the third by maul-  
ing Taylor's chin and heart. The  
fourth was even, with both fighters  
standing toe to toe and trading left  
jabs. Canzoneri's other round was  
the fifth, when he had Taylor wor-  
ried, and backed into the ropes. He  
hooped lefts to the snout and the  
body, but Taylor went into his shell  
and weathered the round success-  
fully.

In the sixth Taylor stepped out as  
though he was going to try to finish  
Tony, with savage lefts to the head  
and rights to the body. He won  
that round and broke even in the  
next. From then on it was all Tay-  
lor.

It was Taylor's best fight, and  
probably the toughest fight he'll  
ever have.

In the semi-windup which was  
put on after the championship tilt,  
Ignacio Fernandez, called the great-  
est of all the Filipino boxers, al-  
though he is a newcomer, surprised  
the crowd, himself and his oppo-  
nent, Abe Attell Goldstein, former  
bantamweight champion, by scoring  
a technical knockout in the seventh  
round.

## RULE AGAINST SUNDAY BASEBALL IN PENNSYLVANIA

Philadelphia, June 25.—(UP)—  
State supreme court today upheld  
the ruling against Sunday base-  
ball in Pennsylvania.

The decision upholding the "blue  
law" of 1794 was handed down by  
Justice Schaffer.

It was made in the appeal of  
the Philadelphia Athletics in the  
action brought by Attorney Gen-  
eral Woodruff following playing of  
a Sunday ball game at Shibe park,  
Aug. 22, 1926.

Quo warranto proceedings were  
instituted by the attorney general  
in the common pleas court of  
Dauphin county, which ruled that  
the Athletics or any other profes-  
sional baseball club was without  
authority under the law to play  
Sunday baseball and entered a  
perpetual injunction against the  
club restraining further games.

### Always Some Virtue

In my exploration for the virtues of  
men, I have learned that patient  
search usually discovers some refresh-  
ing virtue wherever there has been ex-  
hibited any unusual display of energy.  
—Stuart Sherman, in "Critical Wood-  
cuts."

### Not Sure

Little Paul was visiting a neighbor.  
It was cherry time and his mother  
had cautioned him about swallowing  
cherry seeds. Paul was eating cher-  
ries, when he suddenly stopped and  
looked up so scared, and exclaimed:  
"Oh! I swallowed a seed; it didn't  
kill me, did it?"

## ANONYMOUS LETTERS MAKE MAN INSANE

Toccoa, Ga., June 25.—(UP)—Jim  
Ayers, a farmer living near here, was  
to be taken to an insane asylum to-  
day, the accidental victim of an at-  
tack two weeks ago on Mrs. Ansley  
Bowers.

When a band of masked men took  
Mrs. Bowers and her 15-year-old son  
from their home and flogged them, it  
was Ayers who took the woman to a  
hospital at Gainesville.

Since then, according to friends, he  
has been receiving anonymous letters.  
Tortured beyond endurance by them,  
he became violent. Yesterday his  
friends decided to take him to an asy-  
lum, but he escaped and fled to the  
mountains. Later he was recaptured  
and adjudged insane.

A grand jury is to investigate the  
flogging of Mrs. Bowers and her son  
for which four men are under arrest,  
among them a high school superin-  
tendent.

## SWANVILLE TO PLAY LOCALS HERE SUNDAY

UNDEFEATED SWANVILLE NINE AIMS TO MAINTAIN LEAD  
LARGE DELEGATION OF FANS TO ACCOMPANY SWANVILLE

The baseball classic of the local season will be played tomorrow afternoon when Swanville, the only undefeated nine in the Lake Region League, will battle the Brainerd aggregation to maintain its position at the top of the 1926 per cent column.

Brainerd has been conquered only once this year, by Motley, and is therefore rarin' to go. The game will be played on the municipal diamond and will begin at 3 P. M.

Word has been received from the management at Swanville that a large delegation of rooters will accompany the Swanville team to bring home the bacon—maybe.

## HOLLIS THURSTON HURLS AND BATS TO VICTORY

SENATOR PITCHER HERO IN WASHINGTON-BOSTON GAME

DRIVES IN THREE RUNS WITH DOUBLE AND TWO SINGLES

Yesterday's hero—Hollis Thurston, Washington pitcher, who hurled and batted the Senators to a 5-3 victory over the Boston Red Sox. Thurston drove in three runs with a double and two singles, while allowing eight well scattered hits.

The St. Louis Browns got six hits off Joe Shaute of Cleveland, but won from the Indians, 2-1 in the 10th inning.

The St. Louis Cardinals started treading on the heels of the Pittsburgh Pirates by winning while the Pirates were losing. The Cardinals won their fifth successive victory, beating the Reds 3 to 2 in 11 innings. Wee Willie Sherdell allowed Cincinnati six hits. The Cards are just one game back of the Pirates.

The Chicago Cubs pounced on the Pirates, when Charley Root pitched his 15th victory of the year. The Cubs handed Lee Meadows, Pirate hurler his second defeat of the season, the score was 4-2. Root permitted seven Pirates to hit.

The Detroit Tigers rapped out 15 hits for 26 bases to give them a 9 to 4 win over the Chicago White Sox. Tavenner got four hits, and Gehring three including triple and a double. The New York Giants and the Phillies split even on a double header. The Giants slapped out 17 hits to win the first contest, 7 to 3. They

got 14 hits to the Philadelphia club's eight in the second, but were nosed out in the 10th inning, 6 to 5.

In the first two innings of the Braves-Robin game Henry Artz allowed the Brooklyn club 10 hits. Then he mowed down the next 15 batters to face him in order. Boston won, 5 to 3.

Toledo, O.—Toledo took the opener of a series from Louisville in wild slugging match that ended 17 to 12. The Mud Hens pounded Koob and Wicker for twenty safeties, for the eighth consecutive victory for Toledo.

Indianapolis, Ind.—Using five pitchers in a ten inning game, Indianapolis lost the opener of the series here today with Columbus, 13 to 12. Thirty hits and eighteen bases on balls featured the wild game.

## HOLY CITY SCENES ODD TO WESTERNER

### Visitor Must Remember It Is an Oriental Town.

The first impression which Jerusalem makes upon the visitor depends largely on the visitor's previous familiarity with oriental towns. If he comes fresh from western scenes and customs and here for the first time looks upon the East he will find many strange sights, sounds and smells to which to adjust himself. Some will shock him.

The uncleanness, the negligence of sanitation, the acceptance of filth and vermin as a matter of course; the appalling poverty, blindness and disease; the shiftless, sordid figures that bestrew the streets; the shameless begging, aided by all the pity-producing artifices that can be devised; the bizarre marks of racial and religious distinction, such as the straggling, unkempt forelocks of the Polish Jews or the knotted-back hair of the Greek priests—scores of such things will smite his eyes and nose.

If he is incapable of overpassing these strangenesses he may as well return where he can feel the congenial familiarity of Broadway or the homelikeness of Main street anywhere. If, however, he has learned to look with generous eyes on all sorts and conditions of men he soon will see light upon Jerusalem. The conditions as to sanitation are infinitely better under British rule than they have ever been before, and they are constantly improving. Anyway, the idea that cleanliness is next to godliness is western; in a country like Palestine where, even in Jerusalem, there is barely enough water to drink, it is a bit absurd; and admirable personalities can develop under conditions where such an idea is as yet an unrealized alien.

As for happiness, there is probably as much per capita in Jerusalem, or even in these poverty-stricken, mud-brick Arab villages, with all their squalor, as there is in the city of New York.

In the end even the traveler who at first is shocked discovers the real Jerusalem. Its narrow, winding, climbing streets; its thronged bazaars packed along the traffic ways or crowded under colonnades built by Crusaders to house pilgrims; its endless riot of color in costumes that represent many faiths and races; its fascinating salmagundi of strange faces, strange animals, strange clothes and strange accents—all these fill the eye until the Strand or Fifth Avenue seems by contrast very dull, drab, standardized and monotonous.—Dr. Harry Emerson Fosdick in the Ladies' Home Journal.

### On the Watch!

A bank in Portland, Maine, has applied the well known principles of the periscope for the protection of its underground vaults. A long tube has been built into the outer wall of the building, one end of it terminating in a mirror facing the door of a big safe down in the vault, and the other in a similar mirror at shoulder level above the street. A policeman or other guard, patrolling the sidewalk in front of the bank, peers occasionally through a secret peephole in the side of the building, so that he can observe the whole scene in the cellar vault, explains Science and Invention Magazine.

Electric lamps and reflectors illuminate the vault so that the policeman above can see everything clearly. Any obstruction placed in front of the mirror in the cellar immediately betrays the presence of intruders.

### Bacteria in the Movies

Deadly bacteria took their turn as movie actors in amazing films recently exhibited by Dr. H. J. Gerstenberger of Cleveland. "Cold light," developed expressly for this form of microphotography, made possible his remarkable pictures, according to Popular Science Monthly.

Motion pictures of bacteria hitherto have been impossible because the intense heat of the ordinary moving picture light source instantly killed all germs in its path. In taking the new pictures, a current of ice water was arranged to flow beneath the glass slide bearing the living bacteria, to filter out the heat from the powerful light.

### Claimed by the Lydians

The inventor of dice is not known, but it was a boast of the ancient Lydians that they invented dice and coin also.

## "Lindy's" Buddies Drive From Little Falls To Washington

The official delegation from Little Falls, Minn., en route in a Nash car to Washington to welcome Colonel Lindbergh, stopped off in Kenosha, Wis., long enough to receive the hand-clasp of C. W. Nash. The layhood friends of "Lindy" include Mayor Austin Grimes (left); the others in order follow: Sherman Levis, Dr. C. H. Longley and Kenneth Martin. Following the example of Lindbergh, who crossed the ocean in "The Spirit of St. Louis," the group christened their Nash car "The Spirit of Little Falls." C. W. Nash (lower right) was "snapped" by the photographer just after shaking hands with "Lindy's" buddies.

### SUCH A BORE

"On being offered \$70,000,000 for one of his properties," we read, "Mr. Mellon replied, 'It's a good price, but I don't care to be bothered reinvesting \$70,000,000.'"

That has frequently been the objection in our own case. "No," we say quietly but firmly, "your proposition is interesting, but really we prefer not to have the bother of rehaling and reinvesting \$50,000,000 or \$60,000,000; it cuts into our golf so."—New Haven Register.

### Such a Sweet Girl

"It was so funny," said the Gushing Young Thing, "I just thought I should die!"

"Well," asked the Social Wet Blanket, "why did you change your mind?"

### One Way

Stick—Is it possible for an experienced motorist to lose control of his car?  
Stone—Certainly. He might be unable to pay the money on it.—Good Hardware.

### MUST TAKE ITS COURSE

First Link—"He's golf-crazy." See on 1 Link—"Let him alone—it's a disease that has to take its course."

### The Better Plan

This living for tomorrow  
May be some people's way—  
Tomorrow may bring sorrow:  
Let's live a lot today!

### Just the Man

"Say, Richleigh, we'd like to have you help us out at bridge. You play, don't you?"  
"Not very well."  
"So much the better. We play for money."

### Perfect Confidence

Marion—It's ridiculous to say that my diamond ring isn't genuine—I trust Frank implicitly.  
Doris—But if I were you I'd consult a jeweler.  
Marion—Oh, I've already done that.

### Wanted to Get Even

She (in Paris)—"Why were you so insistent about that waiter visiting America?" He (profanely)—"I want him to find out that it is just as hard for a Frenchman to make himself understood in America as it is for an American to make himself understood in France."—Cincinnati Enquirer.

### For Cleaning Silver

Aluminum should be cleaned with finely powdered whiting, such as many housekeepers use for silver, or any other silver powder may be employed. The great thing is to avoid anything likely to scratch the surface.

### Razors

The traveling Outlooker recently met a gentleman from Nova Scotia of Scotch descent who proudly proclaimed that by careful whetting he had made one razor blade endure for nine months. Reporting this exploit to a Norway (Maine) Yankee, he reported that he had one blade in active service after a year's toll on his sandy jaws. Next!—The Outlook.

### Ignoring the Mother

A London magistrate has ruled that a mother must yield to her husband the absolute right to choose what schools their children shall go to and what religion they shall adopt.

### Militarism Rampant

"Premier Baldwin admits that his war experts, like the war experts of the other European countries, are preparing to fight the next war with bacteria."

President Hiram C. Robinson of the Universal Peace league was talking in Denver about militarism.

"America," he said, "shows Europe pretty clearly what she thinks of militarism. Her language is diplomatic, but it's clear."

"America is like the new boarder. His landlady said to him at breakfast:

"Well, how does your coffee suit you, sir?"

"It's just to my taste, ma'am," the young fellow answered—"weak and cold, just as I like it."

### River's Course Changed

The Isargo river, in Italy, is being taken from its bed about eight miles south of Brassanone, and carried through a tunnel to within two miles of Bolzano, where it will be dropped 700 feet.

The horse-power to be generated at this new electric station will be 220,000, and the current will light the country as far south as Florence, 300 miles away.

Two subsidiary stations in lateral valleys are also to be constructed, and the total power of the district will be 315,000 horse-power, or three-fifths of the whole estimated hydro-electric potentialities of Scotland.

### Too Greedy for Maple Sap

At Manchester, N. H., the desire for maple sirup has caused some citizens to tap many of the 30,000 municipal maple trees scattered about the city. Failure of these persons to plug up the holes from which the sap has been drawn is causing the trees to die. Officials of the parks and playgrounds commission promise prosecution for any one who is caught carrying out this unauthorized program. One tree was discovered with 150 holes in it, and the tree will have to be cut down.

### HOLY CITY SCENES ODD TO WESTERNER

#### Visitor Must Remember It Is an Oriental Town.

The first impression which Jerusalem makes upon the visitor depends largely on the visitor's previous familiarity with oriental towns. If he comes fresh from western scenes and customs and here for the first time looks upon the East he will find many strange sights, sounds and smells to which to adjust himself. Some will shock him.

The uncleanness, the negligence of sanitation, the acceptance of filth and vermin as a matter of course; the appalling poverty, blindness and disease; the shiftless, sordid figures that bestrew the streets; the shameless begging, aided by all the pity-producing artifices that can be devised; the bizarre marks of racial and religious distinction, such as the straggling, unkempt forelocks of the Polish Jews or the knotted-back hair of the Greek priests—scores of such things will smite his eyes and nose.

If he is incapable of overpassing these strangenesses he may as well return where he can feel the congenial familiarity of Broadway or the homelikeness of Main street anywhere. If, however, he has learned to look with generous eyes on all sorts and conditions of men he soon will see light upon Jerusalem. The conditions as to sanitation are infinitely better under British rule than they have ever been before, and they are constantly improving. Anyway, the idea that cleanliness is next to godliness is western; in a country like Palestine where, even in Jerusalem, there is barely enough water to drink, it is a bit absurd; and admirable personalities can develop under conditions where such an idea is as yet an unnaturalized alien.

As for happiness, there is probably as much per capita in Jerusalem, or even in these poverty-stricken, mud-brick Arab villages, with all their squalor, as there is in the city of New York.

In the end even the traveler who at first is shocked discovers the real Jerusalem. Its narrow, winding, climbing streets; its thronged bazaars packed along the traffic ways or crowded under colonnades built by Crusaders to house pilgrims; its endless riot of color in costumes that represent many faiths and races; its fascinating salmagundi of strange faces, strange animals, strange clothes and strange accents—all these fill the eye until the Strand or Fifth Avenue seems by contrast very dull, drab, standardized and monotonous.—Dr. Harry Emerson Fosdick in the Ladies' Home Journal.

#### On the Watch!

A bank in Portland, Maine, has applied the well known principles of the periscope for the protection of its underground vaults. A long tube has been built into the outer wall of the building, one end of it terminating in a mirror facing the door of a big safe down in the vault, and the other in a similar mirror at shoulder level above the street. A policeman or other guard, patrolling the sidewalk in front of the bank, peers occasionally through a secret peephole in the side of the building, so that he can observe the whole scene in the cellar vault, explains Science and Invention Magazine.

Electric lamps and reflectors illuminate the vault so that the policeman above can see everything clearly. Any obstruction placed in front of the mirror in the cellar immediately betrays the presence of intruders.

#### Bacteria in the Movies

Deadly bacteria took their turn as movie actors in amazing films recently exhibited by Dr. H. J. Gerstenberger of Cleveland. "Cold light," developed expressly for this form of microphotography, made possible his remarkable pictures, according to Popular Science Monthly.

Motion pictures of bacteria hitherto have been impossible because the intense heat of the ordinary moving picture light source instantly killed all germs in its path. In taking the new pictures, a current of ice water was arranged to flow beneath the glass slide bearing the living bacteria, to filter out the heat from the powerful light.

Following the example of Lindbergh, who crossed the ocean in "The Spirit of St. Louis," the group christened their Nash car "The Spirit of Little Falls." C. W. Nash (lower right) was "snapped" by the photographer just after shaking hands with "Lindy's" buddies.

## PITIFUL CASE OF STARVING FAMILY

Nine Children Whose Parents Unable to Provide for Committed to Owatonna

### LIVED IN SHACK

Left Home at Fort Ripley Following Commitment Last November in Old Car for Grand Marais

An attempt by a family to remain together under an impossible financial situation even to face starvation has been counteracted by county officials in the placing of nine children in the State Public School at Owatonna this week.

Last November a complaint was received by the county sheriff's department that a family living near Fort Ripley were existing under almost impossible conditions, and faced starvation as a result of the husband's futile attempt to provide for the upkeep of his wife and nine children all under the age of 15 years.

A warrant brought the husband into Probate Court and after hearing the evidence the children were committed to the State Public School.

Investigation by county officials revealed that the family were living in an old shack near Fort Ripley, the floors rotted away from age and use, the children with scant clothing and facing starvation.

That evening back in November following the commitment the family held a conference in their home with the result that the husband patched up the old car he owned, put the children in it and what household goods he had and left. Then followed an attempt by the sheriff's department to locate the family.

It developed that the family had travelled to Grand Marais on the shore of Lake Superior to live with a distant relative.

Sheriff officials were unable to go there as all roads were blocked by the heavy snows and there was no railroad in to that point. Impassable roads this spring also blocked the authorities in their attempt to drive to Grand Marais.

Early this week Deputy Sheriff Charles Oberg motored to Grand Marais and with the commitment papers took the children to Owatonna. The parents were allowed to remain at Grand Marais.

Pavement between Pine City and Boroun was opened this week, giving continuous pavement from Rock Creek to Duluth.

### OUTSIDE PARTIES EXPECTED

If Necessary Blooms May be Put in Cold Storage at Brainerd Fruit Co. Free

Because the peony shows at Earl-bault and the First National bank of St. Paul occur on the date originally set for the third annual peony show of the Crow Wing County Garden Flower Society, June 30 and July 1, officials have deemed it advisable to postpone the date of the showing until July 1 and 2. The show will be held in the court house.

The postponement will enable a number of growers and judges from other parts of the state to attend who may not have had the opportunity because of the other shows.

Peony growers will be allowed use of the cold storage of the Brainerd Fruit Company if deemed necessary. There will be no charge, officers announced today.

Instructions as to the best method of handling blooms may be secured from W. V. Turcotte, president of the flower society.

It developed that the family had travelled to Grand Marais on the shore of Lake Superior to live with a distant relative.

Sheriff officials were unable to go there as all roads were blocked by the heavy snows and there was no railroad in to that point. Impassable roads this spring also blocked the authorities in their attempt to drive to Grand Marais.

Early this week Deputy Sheriff Charles Oberg motored to Grand Marais and with the commitment papers took the children to Owatonna. The parents were allowed to remain at Grand Marais.

### SOME POOR SPOTS

#### IN THE HIGHWAYS

Local cloudbursts have left some poor spots in the Minnesota trunk highways, according to the weekly condition report issued by the State Highway department today. No. 11 between Pelland and Baudette and No. 16 between Fulda and Worthington are under water and impassable, but in the latter case a detour is available.

Pavement between Pine City and Beroun was opened this week, giving continuous pavement from Rock Creek to Duluth.

The only road restriction still in effect is on No. 4, between Blackduck and Gemmill, the limit being two tons.

General road conditions are good, with the exceptions shown in the detailed reports below:

T. H. No. 2 — Duluth, Brainerd, Wadena, Detroit Lakes and Moorhead—260 miles—Duluth, paved—Carlton, good—Cromwell, fair—Aitkin, good—Brainerd, good—Wadena, fair, detour, fair—Detroit Lakes, fair—Hawley, detour, fair—Moorhead.

T. H. No. 18—Elk River, Milaca and Brainerd—103 miles—All good.

T. H. No. 19—Brainerd, Walker and Cass Lake—93 miles—Good.

T. H. No. 27—St. Cloud, Little Falls and Brainerd—62 miles—Paved.

### BRAINERD LADIES BAND

Mayor Frank E. Little, Mrs. John Cummins and Local Pi Beta Phi to Speak

Citizens generally will gather at the depot Sunday afternoon to greet the two special trains carrying Pi Beta Phi delegations.

Front street will be decorated with flags. As the convention is of an international character, American and Canadian, it would be appropriate to show the Canadian flag too. The big American flag at the depot will be hoisted.

The first train is due to arrive at 3:15 p. m., leaving for Pequot at 3:20 p. m. The second section arrives at 3:30 p. m. and leaves at 3:45 p. m.

The Brainerd Ladies band will assemble at the depot at 2:30 p. m. The speakers include Mayor Frank E. Little, Mrs. J. J. Cummins president of the Brainerd Musical club and these summer guests, members of the Pi Beta Phi, Miss Gurley, Minneapolis, of Grand View Lodge; Mrs. Ben Walling, St. Paul, of Lake Hubert.

The programs are necessarily short, but if given promptly and with inspiring band music following, the Pi Beta Phi fraternity will always treasure this attention paid them on passing through our city.

### Convention Guide

Mrs. Milton E. Guttersten is convention guide and that means a lot of offices with multifarious duties. She is general manager, ticket taker, pacifier, peacemaker—in fact superintending everything. But no one is better qualified to handle this enormous piece of work than Mrs. Guttersten, charming Minneapolis matron, with dynamic personality.

She came into prominence during the campaign for financing and building a chapter house at Minnesota about ten years ago. During her college years she had shown marked ability in managing the house finances and as chapter treasurer. She was treasurer of the Minnesota Pi Beta Phi association for eight years. During that time the present chapter house was financed, built and mostly paid for.

## PEONY SHOW HERE NOW JULY 1 AND 2

Postponement From Former Date Made Necessary by Other Shows Scheduled

### OUTSIDE PARTIES EXPECTED

If Necessary Blooms May be Put in Cold Storage at Brainerd Fruit Co. Free

Because the peony shows at Faribault and the First National bank of St. Paul occur on the date originally set for the third annual peony show of the Crow Wing County Garden Flower Society, June 30 and July 1, officials have deemed it advisable to postpone the date of the showing until July 1 and 2. The show will be held in the court house.

The postponement will enable a number of growers and judges from other parts of the state to attend who may not have had the opportunity because of the other shows.

Peony growers will be allowed use of the cold storage of the Brainerd Fruit Company if deemed necessary. There will be no charge, officers announced today.

Instructions as to the best method of handling blooms may be secured from W. V. Turcotte, president of the flower society.

"That so?"

"And I've had to live with my mother-in-law ever since I was married."

### Going a Little Too Far

Bridesmaid—How did your husband's friends treat you?

Bride—Terribly! Why, they threw rice all over us!

Bridesmaid—But that's quite the usual thing, isn't it?

Bride—Yes, but this rice had already been cooked.

### AT THE SIDE SHOW

"What you want on this paper," said the favored contributor, who was talking over a suggested series of articles with the editor, "is a bishop."

"I beg your pardon," said the editor.

"I said you wanted a bishop, on the paper," affirmed the contributor.

"What ever for?"

"Well," replied the other, picking up his hat, "from what I've seen of it, there are a number of statements which need confirmation!"

### Distinction

"What does your old man do, Mrs. Raggs?"

"You mean now or when I was married?"

"Well, what did he do and what does he do?"

"Nothin'."

## MISFORTUNE

Tramp (trying to arouse sympathy)—I was in the San Francisco earthquake.

Hardbodied Business Man—Well—what of that?

"I was shot up in the World war."

"So was I."

"I was run over by an automobile."

"That so?"

"And I've had to live with my mother-in-law ever since I was married."

"Great heavens! I should say you have met with misfortune! What can I do for you?"—Illinois Farmer.

## Too Hot-Headed

Critter—You have made your hero too hot-headed, I'm afraid.

Budding Author—How do you mean?

"Well, he has a lantern jaw to begin with. And so his whole face lit up! His cheeks flamed, he gave a burning glance, and then, blazing with wrath and boiling with rage, he administered a scorching rebuke."

## Going a Little Too Far

Bridesmaid—How did your husband's friends treat you?

Bride—Terribly! Why, they threw rice all over us!

Bridesmaid—But that's quite the usual thing, isn't it?

Bride—Yes, but this rice had already been cooked.

## AT THE SIDE SHOW

Visitor—You say it's perfectly natural for you to eat glass?

Glass-Eater—Sure—I got a bottle every time I was hungry when I was a kid.

## Hymn of Hate

A guy I hate  
Is Peter Lumm,  
Who howls at ump:  
"Kill that big bum!"

## A Natural Surgeon

"I believe," declared the Irishman, "that me youngest son's born t' be a surgeon."

"Phwat leads ye t' say that?" asked his friend.

"O! caught him usin' th' scissor on a book O'd lately bought, an' before O! e'd stop him he cut out th' appendix."

## Can't Tune In

Father (severely)—Now you understand what I have just said, young lady.

Small Daughter (unimpressed)—Will you please broadcast it again, daddy? I haven't quite got your wave length.

## Those Dear Girls

"Tell me just what sort of a man your fiance is, Clara."

"Oh, he's everything that's nice."

"I'm so glad. You know I've always said that people should marry their opposites."

## Got Along Without Zero

The Greeks and Romans did not have a zero in their numerals. Our present system with the zero was derived from that of the Arabs.

## WHAT THE PAPER NEEDED

"What you want on this paper," said the favored contributor, who was talking over a suggested series of articles with the editor, "is a bishop."

"I beg your pardon," said the editor.

"I said you wanted a bishop, on the paper," affirmed the contributor.

"What ever for?"

"Well," replied the other, picking up his hat, "from what I've seen of it, there are a number of statements which need confirmation!"

## Distinction

"What does your old man do, Mrs. Raggs?"

"You mean now or when I was married?"

"Well, what did he do and what does he do?"

"Nothing."

## She Knew

"If I stole fifty kisses from you, what kind of larceny would it be?" asked the young man.

"I should call it grand," sighed the sweet young thing, without a quiver of an eyelash.

## THEY COVER THE GROUND

He—I tell you when I walk I cover the ground.

She—Yes, big feet are certainly an advantage in covering the ground.

## Hymn of Hate

A guy I hate  
Is first named Fred,  
He wears a tie  
That's flaming red.

## His Opinion

"Do you know," she said, "you are the very first man to kiss me?"

"Then you must have taken a correspondence course," he answered.

"You certainly don't seem like a beginner."—Pearson's Weekly.

## All That Wasted?

"Jack, here's the dollar I borrowed from you last week."

"Great Scott, Tom, I'd forgotten all about it!"

"Hang it! Why on earth didn't you say so?"

## Smart Aleck

Cushing Customer (in auto shop)—But you must know the car I mean—it is just too sweet for words.

Salesman—If you will step this way, madam, I will show you the latest "two sweeters."

## IT VARIES

"How deep is that piece of property?"

"Well, it measures 50 by 150, and when the tide is in, it's five feet deep."

## The Speed Fiend

He hates to be where he is.  
(A phobia rather quaint).  
And so he's ever on the whiz  
To get to where he ain't.

## Cruel

"No," said Miss Howles firmly, "I could not sing even if you should ask me. I have given it up."

"The doctor ordered it."

"How you relieve me!" exclaimed her friend. "I was afraid it might have been the police."

## Finished

Ma!—What did you marry her for?

Man—For her money.

"Yes, but now you want a divorce."

"Because I got it."

## Appreciation? Sure!

"Ted struck me for a loan of five last week."

"Did he appreciate it?"

"I'll say. He's demanded several encores since."

## Knew What Was Coming

He—There now, what do you think of it?

She—Well, to tell you the truth—He—That's right! Be as nasty as you can!—Stray Stories.

## Well, Well

"What's in a name?"

"Can't be much. I was arrested for parking on Park avenue."
